Member of the US Soccer Adult Council,

Hope you are all doing well and that your year begins with health and happiness. We are beginning a new and exciting year in 2026 with many new initiatives for the soccer community and the World Cup coming to the United States this summer. I hope that you all have the opportunity to enjoy the World Cup this summer.

My term as Chairman of the Adult Council and my position on the US Soccer National Board of Directors comes to an end at the Annual Meeting in February. I am writing this letter to announce that I will run for re-election next month for both positions. It has been an honor representing you all as your Chairman and as your US Soccer Board of Directors representative. I believe that I have represented the Adult space well on the Board of Directors and I will continue to do so.

If elected as the US Soccer NBOD member, it will be the last term of eligibility for me, thus it would be the final term as a NBOD member. I will also commit that this will be my last 2 year term as Chair of the Adult Council. We currently have many projects that need to be finalized, and I would like to remain as Chair to get these projects completed.

There are many programs that the Adult Commissioners have been working alongside US Soccer to improve the Adult space, and I would like to continue to work and complete these initiatives. Some of the programs we are working on are, improving the competitions for all Adult Soccer members, including an improved National Amateur Cup. We continue to improve the US Open Cup, including the push for a Women's Open Cup. We are working with US Soccer and CONCACAF to launch a CONCACAF Amateur Championships for Men and Women.

This year the USASA Amateur Champions, West Chester United will be playing a game with England's FA Amateur Champions, the Arthurian League, who are the current holders of the FA Inter League Cup, their Amateur Champions on June 26th in Philadelphia. I have been working with West Chester and USASA to make this game a reality.

As I stated, this is an exciting year with lots of exciting things happening in the Adult space. I would like to continue working on these initiatives and would like your support to do so. Safe travels and see you all in Atlanta.
